Lowgate. HULL.

Dear Sirs,

For the purpose for which the Steam Tug "Newark" is required viz:- for towing launches in Valparaíso Bay, we think that it would perhaps be unnecessary to go to the expense of all the changes and additions you suggest to Mr Watson, in order to get the craft classed "A" for towing purposes.

We should feel obliged if you could inform us that you consider the boat well built and engined and in first class order.

Yours faithfully.
