Lloyds' Surveyor.

HULL.

Dear Sir,

We have bought, subject to our approval after inspection and trial trip, a steel steam tug "Newark", built and owned by J.S. Watson at Gainsborough, which we propose to send out to South America.

We shall be obliged if you will make a survey of her for our account, and if necessary class ~~ify~~ her, and advise us if you consider the craft suitable for the purpose of towing cargo launches in Valparaiso Bay.

Please let us know what your fees will be before acting.

Yours faithfully.
