RECD 13 JAN 1911

ANSR

14

I respectfully beg to submit for the consideration of the Committee a proposal made by Messrs. The Hull Steam Fishing & Ice Co., to reclass and fit a new boiler in the Steam Trawler "JERSEY", increase the boiler pressure from 170 to 180 lbs. They also intend repair the Crank Shaft, the diameter of which will be $5\frac{3}{16}$ inches.

The actual diameters of the Cylinders are $10\frac{1}{8}$ ", $16\frac{1}{8}$ ", and $25\frac{1}{8}$ ". Owners will be glad to be advised if this meets with the approval the Committee.

I am, Sir,

Your obedient Servant,

Secretary,

LONDON.
