REPAIRS

This ship in many respects ^{appears} to be very well built. The single iron and plating average is as what is required for the 9 years Grade; but from the remarks made by Mr. Linton in his report from Belfast, and the circumstance of the Plank-sheer being of American oak ^{if} she cannot be recommended for above the 6 years class, and the owners have requested that she might not be put into the Book unless a class of 9 years can be obtained. The butts when run are double riveted.
