 Standing & Running Rigging Q.

General Observations and Opinion,

Caulking of Bottom, Deck, and Waterways

Good
 This vessel has been docked to get bottom cleaned and painted, but no repairs required, she is in a very good state of repairs throughout, and is well found in stores. I am of opinion she should remain as Classed 12A1 until the end of this year, when it is the intention of the Company to apply for a Special Survey for Continuation.
