Geo. W. Saffang Esq

Sir,

I beg to enclose you report of the new screw
Steamer "Persian" which has gone to
Greenock to get her engine & boilers
put on board. She has also to be rigged
and fitted out, having left this in
tow of a steamer, with only her lower
masts stepped. No doubt you will
instruct the Surveyor at that Port
to see that the remainder of her stores
are put on board, after which the
Certificate may be sent here.

I am,

Sir

Your obedient servant
Wm. Linton

P.S. Enclosed also is sketch of plating of the above vessel
