Last Survey, No. 12775 Port Dron Classed 100. A. 1

REPAIRS, &c. Work done:- sighted the bottom, and scraped and painted it. A number of bolts on each side renewed; a few web in the after length piece, in the lands of plating, also some floor in skin plating and frames, and a number in the rudder, renewed. Raising beam ends in lower hold re-riveted.

Upon examination we found the defects enumerated in the accompanying copy of a letter to the owners; which, in our opinion, may be attributed to stress of weather, of a severe character, which the Captain reports, the vessel encountered in crossing the Atlantic.
