Diameter of Cylinders 41 and 42 inLength of Stroke 60 inEngines made at GlasgowWhen made 1875Pressure of Steam 60 lbNominal Horse Power 220By whom made J. Elder & CoParticulars of ~~Repairs~~ Examination

At the request of the manager of the London Brighton and South Coast Railway examined the engines and boilers of this vessel and found them to be in good working order and safe working condition. Also examined the cocks, pipes, connections &c. and found them to be so arranged that water could not be run by accident from the sea into the boiler.

It is submitted that this vessel is eligible to have a machinery certificate granted from this date.

(Condition of Engines and Boilers, and subsequent Repairs and Examinations, to be clearly stated.)
