Port belonging to

London

Classed

Years
assigned.

Character in Register Book.

100 AT

Diameter of Cylinder 33.64

Length of Stroke 45"

Engines made at

Newcastle

When made

1854

Pressure of Steam 70 lbs

By whom made

Clark

nominal Horse Power 180

Particulars of Repairs and Examination

Cylinder covers lifted and pistons examined, Air Pumps examined and new valves put in where necessary. The vessel placed on the pontoon and stern tube and screw propeller examined and found in good condition. Covers lifted of main bearings and Crank pins disconnected and overhauled.

On inspecting the Crank Shaft the mark mentioned in special Survey report dated January 25th 1875 was found not to have extended or altered its appearance in any way.

The Machinery and Boilers are now in good order and safe working condition, and eligible for the notification, Lloyd's M.C., in the Register Book
