

IRON SHIP.

Survey held at Monro Date, First Survey 3-3-76 Last Survey 27 June 1876
Mary Stewart Yard Number 2 Master J Stewart

72 93 ONE, OR TWO DECKED, THREE DECKED VESSEL.
 SPAR, OR AWNING-DECKED VESSEL.
 HALF BREADTH (moulded) 8 5
 DEPTH from upper part of Keel to top of Upper Deck Beams 8 5
 GIRTH of Half Midship Frame (as per Rule) 15 83
 1st NUMBER 34 83
 1st NUMBER, if a THREE-DECKED VESSEL
 deduct 7 feet
 LENGTH 70
 2nd NUMBER 2438
 PROPORTIONS—Breadths to Length under 4 Breadths
 Depths to Length—Upper Deck to Keel under 8 depths
 Main Deck ditto

Built at Monro
 When built 1876 Launched 3-6-76
 By whom built Black & Noble
 Owners J Stewart
 Port belonging to Gruinock
 Destined Voyage Coasting
 Surveyed while Building, Afloat, or in Dry Dock.

 ES extend in one length from Center line to Upper Stringer Riveted through plates with 10 1/2 in. Rivets, about 3 apart. CAC

URSED ANGLE IRONS on floors and frames extend from the middle line to Upper Stringer and to alternately
 NS. Are the various lengths of Plates and Angle Irons properly connected? well connected and butts properly shifted? well shifted
 G. Garboard, double riveted to Keel, with rivets 14 1/2 in. diameter, averaging 4 3/8 ins. from centre to centre.
 Edges of Garboards and to upper part of Bilge, worked clencher, double riveted; with rivets 10 1/2 in. diameter, averaging 2 1/2 ins. from centre to centre.
 Butts from Keel to turn of Bilge, worked carvel, double riveted; with rivets 10 1/2 in. diameter averaging 2 1/2 ins. from centre to centre.
 Butts of one Strakes at Bilge for 1/2 length, double riveted with Butt Straps 1 1/2 thicker than the plates they connect.
 Edges from bilge to Main Sheerstrake, worked clencher, double or single riveted; with rivets 10 1/2 in. diameter, averaging 2 1/2 ins. from cr. to cr.
 Butts from Bilge to Main Sheerstrake, worked carvel, double riveted; with rivets 10 1/2 in. diameter, averaging 2 1/2 ins. from cr. to cr.
 Edges of Main Sheerstrake, double or single riveted. Upper Sheerstrake, double or single riveted.
 Butts of Main Sheerstrake, double riveted for 4 length amidships. Butts of Upper or Spar Sheerstrake, treble riveted length amidships.
 Butts of Main Stringer Plate, treble riveted for length amidships. Butts of Upper or Spar Stringer Plate, treble riveted for length.
 Breadth of laps of plating in double riveting 6 Diam Breadth of laps of plating in single riveting 3 1/2 Diameter

Straps of Keelsons, Stringer and Tie Plates, treble, double or single Riveted? treble & double
 rway, how secured to Beams Cutler (Explain by Sketch, if necessary.)
 as of the various Decks, how secured to the sides? Iron plate Pins No. of Breasthooks, 3 Crutches, 3
 description of Iron is used for Frames, Beams, Keelsons, Tie, and Stringer Plates, Outside Plating, &c.? Plates Consell Iron Co
 manufacturer's name or trade mark, Angby = Abbott

The above is a correct description.
 er's Signature, Black & Noble Surveyor's Signature, J Stewart

IRON 467-0219

Workmanship. Are the butts of plating planed or otherwise fitted? *not planed otherwise fitted*
Do the edges of the carvel work and of the butts lay close together throughout their length without requiring any making good of deficiencies?
Are the fillings between the ribs and plates solid single pieces? *single solid pieces*
Do the holes for riveting plate to frames, butt straps, or plate to plate, &c., conform well to each other? *Conform fairly*
Are the rivet holes well and sufficiently countersunk in the plate and punched from the faying surfaces? *well countersunk & punched*
Do any rivets break into or through the seams or butts of the plating? *in a few cases at butts*

Masts, Bowsprit, Yards, &c., are *Wood* in *Good* condition, and sufficient in size and length. If of Iron or Steel, state the number of Plates and Angle Irons, mode of riveting, quality of Materials, and if stamped with Maker's name.

State also Length and Diameter of Lower Masts and Bowsprit

Bowsprit 12' outside 11' diameter at Ring 12" Cap 10"
Foremast 55' 5" at Post 12 1/2" Cap 9 1/2"
Main Mast 54' 5" 12 5 9
all Pitch Pine

1	Fore Topmast Stay Sails	(State Machine where Tested, Date, & name of Superintendent.)									
1	Main Sails,	Hawser ...	90	5"	90 x 5						
1	Main Top Sails,	Towlines ...	90	3"	90 x 3						
and others in all quality											

Standing and Running Rigging *May 11/18* sufficient in size and *Good* in quality. She has *one 14"* Long Boat *and*
The Windlass is *Wood - Runher* Capstan and Rudder *Good* Pumps *2 Metal*

Engine Room Skylights. How constructed?

How secured in ordinary weather?

What arrangements for deadlights in bad weather?

Coal Bunker Openings. How constructed?

How are lids secured?

Height above deck?

Scuppers, &c.—What arrangements for clearing upper deck of water, in case of shipping a sea? *2 pair Scuppers & same to P*

Cargo Hatchways.—How formed? *I am plate Combings & such ledgy*

State size Main Hatch *9.11 x 5.9* Fore hatch *after Quarterhatch 6.7 1/2 x 4.9*

If of extraordinary size, state how framed and secured? *not in any size*

What arrangement for shifting beams? *none*

Hatches, If strong and efficient? *strong & efficient*

Order for Special Survey No.	DAYS of Surveys held while building as per Section 18.	1st. On the several parts of the frame, when in place, and before the plating was wrought	2 13 28 March
Date		2nd. On the plating during the process of riveting	4 10 20 29 (4 m) 5 15 22 29 (4 m)
Order for Ordinary Survey No.		3rd. When the beams were in and fastened, and before the decks were laid...	
Date		4th. When the ship was complete, and before the plating was finally coated or cemented...	7 16 27 (6 m)
No. 2 in builder's yard.		5th. After the ship was launched and equipped	

General Remarks, (State quality of workmanship &c.)

This is a flush decked vessel with round stern. Workmanship in respect to iron is of fair quality. And section tracing forwarded 26/1/76 reply 28/1/76 " provided lower edge of sheer strake be double riveted to the scumplings & arranged otherwise as shown in figured dimensions on sketch of mid section sub. The rules in all respects carried out & the vessel completed & satisfactorily reported on build in respect to class &c. 2-2-76 Note from Builder forwarded in reference to double rivetting edge of sheer strake as being beyond the requirements of Rule 21 of the rules in this case. Reply 3-2-76, Sheer strakes may be riveted as originally proposed in accordance with the rules

State if one, two or three decked vessel, or if spar or awning decked, and lengths of poop, forecabin or raised quarter deck, or of double or part double bottom.

How are the surfaces preserved from oxidation? Inside *Cemented out to Bulge & 3 Coats Oil* Outside *3 Coats Oil Paint*

I am of opinion this Vessel should be Classed *100 A1* *not otherwise*
