REPAIRS, OR EXAMINATION AS PER RULE

S. S. No 3 & damage

S. S. No 2-75

This vessel having struck the ground has now been placed in graving dock when the stem & bow plates were found to be badly damaged, thereby necessitating the renewal of part of the stem & iron bow plates, the straightening & refitting of four other plates & the re-riveting of the greater portion of the shell uniting between the stem & collision bulkhead. Several bulges in the bilge have been now fitted with treble riveted strips.

In connection with this all the close ceiling has been removed in order to the examination of cement in floor of bottom. The floor plate framework riveting &c. It was not considered necessary to drill the plating.

The vessel has now been sealed & recoaled inside & out.
