

25187 Iron

Plancher plate No. 4, angles 4x3x5/16, and otherwise as per approved tracing attached, with the exception that only two web plate frames have been fitted. They however to state that four substantial Cabm bulkheads are fitted, as shown in red on the tracing; the Bow Truss casing extends the whole length of the New Bridge, and to which the tie plates and beams are securely attached, and the Workmanship is very good.
