tered Horse Power <i>80</i>		<i>5-80</i>
Survey No. <i>26703</i>	Port <i>Iron</i>	<i>Lloyd's One to 9-49</i>

Particulars of Repairs and Examination *The machinery of this vessel has been examined for repairs to damage sustained on the 23rd September 1880.*

The crank shaft which was broken in two through the centre of the web of the aft crank has been satisfactorily replaced by new one.

The bed plate of the engines which is cracked down through the centre below the fore middle bearing of the crank shaft has been satisfactorily repaired by 3/4 inch malleable iron plates fitted to each side of the cracked bearing and bolted through the webs by turned and fitted bolts.

General Observations, Opinion, and Recommendation: *The machinery of this vessel is now in good order and safe working condition and eligible in my opinion to retain her class in the Society's Register book.*

Survey or Registering Fee ... £ *1 : - : -*
Survey Fee ... *Damage* ... £ *1 : 1 : -* received by me, *W.E.S.*
Certificate (if required) ... £ *- : - : -* *28th Oct 1880*
