OFFICE—

12 1/4 Fenchurch Street.

London, E.C. 9 Aug<sup>th</sup> 1869

PLEASE ADDRESS  
ALL COMMUNICATIONS  
TO MR W. HOPCRAFT.

Gentlemen.

I am obliged by you for one of 7<sup>th</sup> inst the contents of which I duly note.

In making your report to the Committee of Lloyd's Register of Shipping I must request that you will be good enough to forward therewith my letter to yourselves of the 5<sup>th</sup> inst or a copy thereof, together with the enclosed extracts from letters received by me from my representative at Liverpool referring to this matter: which extracts will clearly show that the owner of the vessel though thoroughly aware that the coupling was to be of cast metal, was nevertheless quite satisfied as to its suitability for the purpose for which it was to be employed.

I must respectfully draw your attention to the special request contained in the concluding paragraph of my letter of 5<sup>th</sup> inst and to which you have not replied.

In accordance with your desire I enclose a diagram of this apparatus - I also enclose you a few testimonials in its favour.

I am Gentlemen.

Yours obt<sup>l</sup> Serv<sup>t</sup>

W<sup>m</sup> Hopcraft  
J. S. H.

Yours Gladly Mr. Brownell.  
West Hartlepool
