

Ulster Iron Works,

Albion Basin,

Belfast Nov 9th 1869

Sir

As desired by Mr. Otto Pohl of Liverpool we beg herewith to hand you a longitudinal section of the Steam Barge we are about to build for him, shewing position & arrangements of the sliding keels. With this we also send a section thro' sliding keels & wells on a larger scale.

We trust these tracings will sufficiently explain themselves & may be deemed satisfactory by you.

As we are waiting to begin this work you will greatly oblige by letting us know your decision at the earliest moment.

We are Sir

your obed^t. Servants

Are the drawings sent herewith identical
with those previously reported upon 5th 28/1

th
16 Nov 1899

On the 11th Ins^{ts}, it was verbally stated upstairs, that
the drawings in question received at the Office on that
day, did not require any alteration to be made in
the Report of 10th Ins^{ts}; upon this subject
