Dear Sir

I take the first opportunity to reply to your note of the 22nd Inst, with enclosed tracing of Iron marks made by Messrs Head Wigham & Co. of Stockton. I have to state that these marks were verily made before Mr. Pile requested our attention. we had no drawings or scuttings given. We can state that the workman, ship & materials are good, & that

The sizes now shown in tracing are as near as we remember.

Yours respectfully
S. S. Hodgson
