M.

The Secretary  
Lloyd's Register of Shipping

Sir. With reference to my letter of  
yesterday date which enclosed the first  
entry report on the S.S. 'Estelle' I beg  
to suggest in view of the thin plating at  
her ends that she  $\frac{10}{16}$  stake proposed to  
replace the present  $\frac{7}{16}$  one for  $\frac{3}{4}$  length  
should be extended into the ends of the  
vessel.

I am Sir,

Yours obedient servant
