

Senior Steam^a Viceroy

I beg to draw the Committee's attention to the fact of the Equipment having been furnished without any regard to the Freecastle the occurrence of which oversight is solely attributable to a change made in the construction from a "Monkey Freecastle" to that of a "Full Freecastle".

Had she been completed with a "Monkey Freecastle" her Equipment would have been correct according to the Rules but the slight change has caused the Numerical for Equipment rather to exceed that by which the outfit has been furnished. As this small difference in the Numerical has not been made to ~~exceed~~ the Rules but in consequence of oversight I trust that the Committee may be pleased to grant the Figure 1. as recommended in the accompanying Report of Survey.

23 Sept. 1871

M. J. Jones

It is submitted that under the Circumstances shown above, a hope is expressed that the Figure 1 will be granted, as allowed in the case of the Senior Steamer "Lisbon".
