

S.S. "Moncalieri" late "Shetis" built at
Greenock under Special Survey in 1857 and
classed 9A1: She has now been specially
surveyed and recommended by the Genoa Surveyors
to be classed 90A1.

This vessel was built in conformity to the Rules
for the 9A1 Class. Her scantlings are not in
strict accordance with the requirements of
the 90A grade but are fully equivalent thereto.

It is therefore submitted that this vessel
merits favorable consideration to be assigned the
equivalent 90A1 Class in the Register Book
as has been done in similar cases, and to
be marked "S.S. N° 3 - 76".
