

S.S. No 241
Building at Sunderland by Messrs W. Pile & Co

The Engines and Boilers of this vessel were built at Greenock, and have been sent to Sunderland to be fitted in the vessel. The Boilers have been tested and the Machinery inspected during construction by Mr Molteno. It is respectfully submitted that the accompanying reports be sent to the Society's Engineer Surveyors at Sunderland, and that they be requested to complete the inspection of the machinery after it has been fixed on board.

J. Milton
