May 15th 1876 —

Messrs The Surveyors to Lloyd's,
Greenock,

Gentlemen,

I desire that the size of
the Anchors & Cables for the Steam Yacht
"Dobhran", building for me by Messrs Cunliffe
& Dunlop at Port Glasgow, may be regulated
by the Tonnage and not by the Numerical
Column of your Rules and Regulations

I have instructed Messrs C & D to supply
them accordingly. providing same meets
with your approval and does in no
way affect the classification.

I remain, Gentl.
Yours truly,

Th Valentine Smith
