

J. S. Compton

This vessel was before the Committee on 22nd ult^o but not classed in consequence of her Coal bunkers being too near the Boiler, The Builders regret that there has been some misunderstanding about these air spaces, but promise to alter them on the vessels return from Odessa.

It is submitted that under these circumstances the vessel be considered eligible to be classed with the notification Lloyd's M.C. and a Machinery Certificate given 17th March 1878
