COMMUNICATIONS
TO BE ADDRESSED
"THE SURVEYORS"

M.

L. Encls.

The Secretary Sir

Referring to your letter of the 31st Ult^o. with enclosures relative to the moulded depth of the S.S. "Lizzie English" - asking for an explanation of an apparent discrepancy as regards the measurement - I beg to state that on reference to my note book I find 21. 10" - herein recorded as the moulded depth - but no other figures in connection therewith: - so much time having elapsed since the vessel was seen - it is quite impossible for me now to tax my memory as to other particulars - but I am under the impression that Captain Pymon was present at the time the measurement was taken - but of this I am not quite certain -

I am,

Sir

Yours obed^t Serv^t

Henry J. Pywell

ds

The enclosures referred to are herewith returned
