Liverpool 30 Aprl 1842

Sir

The fastenings in the Report
of the "Viscount Sandon" should be.

"To hold Beams": Gibson patent I plate with wood
Ledging knees forward & aft - 7 pair diagonal
hanging Dº with Side arm from 10 to 13 ft
1 pair standing & the Rapple standards
connected with the Deck Beams

"To Deck Beams": 8 Rapple standards & 5 diagonal hangers
on each Side. -

She has also a Crutch. -

You will receive here with a Report of Survey on the Ship
"Indian Chief" Messᵗ W Fisher & Co Owners. They did not
make up their minds to have her Classed until they had
taken in a considerable portion of Cargo & it was therefore
then too late to put in the additional Iron knees required
by Rule, but as she requires only 1 pair to hold beam & 2 Dº to
Deck Beams, they have promised to put them in on her return
We are Sir Your obedᵗ Servᵗ
