REPAIRS // On examination of this vessel found the keelson had the appearance of being defective in way of the main-mast. The treenails in stow had also a defective appearance. The vessel had been wood-sheathed at some time over the upper course of bottom and on the Starboard bow where a piece of the sheathing had been cut and torn away, said to have been done by Dec. we found the plank in way of the same very badly wormed. and on the 23rd of July left notice card with the Captain to the following effect: viz. To clear the stow in way of the keelson for survey. To drive out some treenails and strip off wood sheathing in way of wormed planks. that the vessel may be fully examined. //

General Observations and Opinion,

Caulking of Bottom, Deck, & Waterways.

The above recommendation has not been attended to and the vessel removed from dry dock, and on the 13th or 14th of August proceeded down the river said to be bound to the Clyde to be repaired. We are of opinion her character should be suspended until properly examined, and repaired as found necessary.
