30183 don

The timbers of the frame were exposed
were found to be in a most satisfactory state with
the exception of some few soft timbers on each side

We respectfully beg to call the Committee's
attention to the fact that wherever curved timbers
was required the same is of hard wood, further
that several pairs of iron-riders have been added
since this ship was built; and that after having
made a careful examination we have found
that she exhibits no symptoms of heakness.
