 Registered Horse Power *270* Character in Register Book. *100 A1*
 Last Survey No. *6314* Port *Glas* *+ LMC 1183*

Particulars of Repairs and Examination

(State clearly the cause of Repairs if any, and, in detail, the nature and extent of Examinations and subsequent Repairs. Repairs on account of Damage should be separated from Repairs due to other causes. State also the dates and initials of any letters respecting this case.)

Examined defective tunnel shaft. (diagonal zig zag flaw) and recommended new one to be fitted. The new shaft is roughly turned except at bearing and appears to be sound.

It is submitted that this vessel is eligible to remain as classed
M 29/1/85

General Observations, Opinion, and Recommendation:—

(State clearly what alteration, if any, is suggested to be made in the existing notification of the vessel's machinery in the Register Book, consequent upon this survey.)

As far as seen the machinery of this vessel appears to be in a safe working condition and is in my opinion eligible to remain as classed
