Particulars of Repairs and Examination

On account of limit on Crank shaft

(State clearly the cause of Repairs if any, and, in detail, the nature and extent of Examinations and subsequent Repairs. Repairs on account of Damage should be separated from Repairs due to other causes. State also the dates and initials of any letters respecting this case.)

Examined the crank pins and found the longitudinal seams had not extended since the last examination

General Observations, Opinion, and Recommendation:—

(State clearly what alteration, if any, is suggested to be made in the existing notification of the vessel's machinery in the Register Book, consequent upon this survey.)

The machinery of this vessel is now in good order and safe working condition as far as seen and in my opinion eligible to remain as classed and have her name removed from the limited list.
