Particulars of Repairs and Examination *Part Special Survey*
 (State clearly the cause of Repairs if any, and, in detail, the nature and extent of Examinations and subsequent Repairs. Repairs on account of Damage should be separated from Repairs due to other causes. State also the dates and initials of any letters respecting this case.)

Examined Sea cocks & connections & found them good.
Examined High pressure cylinders & Low pressure slide & found them good.
Examined part of boilers viz: all the furnaces (corrugated) & shells & found them in a good condition.
Examined Safety valves & found them in a good condition.

The rest of the machinery had been opened out & was closed up again before the vessel went into Dry Dock. It will be opened out again on the vessels return in about 2 months time.

General Observations, Opinion, and Recommendation:— *As far as seen the machinery of this vessel is in a good safe working condition and eligible in my opinion to remain as classed, provided the remainder of the machinery be submitted for survey on the vessels return in 2 months time.*
 (State clearly what alteration, if any, is suggested to be made in the existing notification of the vessel's machinery in the Register Book, consequent upon this survey.)
