 Pressure of Steam 65 If Surveyed Afloat or in Dry Dock Deptford Str (State Name of Dock.)
 Registered Horse Power 155 Classed 100 A 1
 Last Survey No. Port Lm 6.81.
 Character in Register Book. 2.85

Particulars of Repairs and Examination

(State clearly the cause of Repairs if any, and in detail, the nature and extent of Examinations and subsequent Repairs. Repairs on account of Damage should be separated from Repairs due to other causes. State also the dates and initials of any letters respecting this case.)

of machinery in accordance with the requirements of the Rules for S.S. No. 2.
 Examined cylinders, slides, all pumps, crank shaft & sea connections & found them in ^{good} condition.
 Donkey boiler examined & found good.
 Main boilers examined & found in fair condition except furnaces which were badly cracked round the flanged strengthening rings. The old furnaces have been cut out & replaced by plain new ones and tested by water pressure to 100 per square inch satisfactorily.

General Observations, Opinion, and Recommendation:--

The machinery of this vessel is now in good order and safe working condition and eligible in my opinion to have the notification Lm 6.86 recorded subject to the resurvey of boilers as per Rule.
