Particulars of Repairs and Examination Annual Boiler Survey  
 (State clearly the cause of Repairs if any, and in detail, the nature and extent of Examinations and subsequent Repairs. Repairs on account of Damage should be separated from Repairs due to other causes. State also the dates and initials of any letters respecting this case.)

7. new Sailstap  
 Examined Seacocks & connections & found them good. The liner on the sailstap was found to be slack. A new sailstap has been fitted, & new lignum vitae has been fitted in the stern bush.  
 Examined the main boiler (3 furnaces & 1 combustion chamber) & its dome & found it in a good condition. The vertical seams in the combustion chamber back were leaky have been rivetted & re-aulked.  
 The safety valves were not seen before the vessel sailed and no opportunity has subsequently been afforded of seeing whether they are still set to the right working pressure.

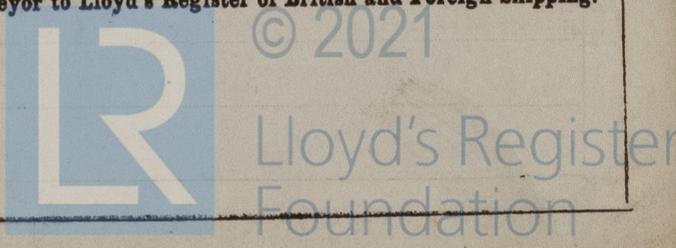

General Observations, Opinion, and Recommendation:-- As far as seen the  
 (State clearly what alteration, if any, is suggested to be made in the existing notification of the vessel's machinery in the Register Book, consequent upon this survey.)  
machinery of this vessel is in a safe working condition and slight to have the notification B. S. 6. 86 recorded in the Register Book subject to an early adjustment of the safety valves.
