Particulars of Repairs and Examination For S. S. "Sisbon"

(State clearly the cause of Repairs if any, and in detail, the nature and extent of Examinations and subsequent Repairs. Repairs on account of Damage should be separated from Repairs due to other causes. State also the dates and initials of any letters respecting this case.)

Examined cylinders, slides, air, circulating feed and  
bilge pumps, & found them in good condition.  
Crane & Thrust shaft examined.  
For report on Boilers see London report No 46281 dated  
June 1886.

General Observations, Opinion, and Recommendation:—

(State clearly what alteration, if any, is suggested to be made in the existing notification of the vessel's machinery in the Register Book, consequent upon this survey.)

The machinery being now  
in good & safe working condition renders the vessel eligible  
in my opinion to be marked in the Register Book with  
B & M. S. 9. 86 provided that the boilers are again examined  
within 12 mths. as per rule.
