Particulars of Repairs and Examination Special Survey
(State clearly the cause of Repairs if any, and, in detail, the nature and extent of Examinations and subsequent Repairs.)

Repairs on account of Damage should be separated from Repairs due to other causes. State also the dates and initials of any letters respecting this case.

Did the Surveyor personally go inside each Boiler separately (including the Donkey Boiler, if any), and make a thorough examination at this time? yes

If this was not done, state for what reasons?

And what parts of the Boilers could not be thus thoroughly examined?

Also what special means, in the absence of internal examination, were adopted by the Surveyor to assure himself of the thorough efficiency of those parts of each Boiler?

Examined the main boiler steam dome, donkey boiler and their valves & found them good.
Examined the crank shaft, pumps cylinder & slide valves & found them good.
The safety valves were found to blow off at 70 lbs.
Examined the sea cocks & connections & found them good.

General Observations, Opinion, and Recommendation:— The machinery of this vessel is in a safe working condition and eligible in our opinion to have the notification L. M. C. C. 87 recorded in the Register Book
