☒ Surveyed Afloat ☒ in Dry Dock Union  
(State name of Dock.)

Classed 90A1

Registered Horse Power 130

Last Survey No.

Port

L.M.C. 8.84 B.S. 3.85

## Particulars of Repairs and Examination For Annual Survey

(State clearly the cause of Repairs if any, and, in detail, the nature and extent of Examinations and subsequent Repairs. Repairs on account of Damage should be separated from Repairs due to other causes. State also the dates and initials of any letters respecting this case.)

Vessel placed in dry dock sea connections examined & found to be in good condition, the propeller & its fastenings sound & the stern bush worn

Main boilers examined internally & externally & found to be in good condition. Safety valves in good condition.

Wreck boiler examined & found in good condition.

Main boiler safety valves set under steam to 70 lbs.

Wreck " " " " " 40 lbs.

## General Observations, Opinion, and Recommendation:—

(State clearly what alteration, if any, is suggested to be made in the existing notification of the vessel's machinery in the Register Book, consequent upon this survey.)

The <sup>boilers</sup> machinery being now in good & safe working condition renders the vessel eligible in my opinion to remain as classed & have the notification B.S. 6 37 recorded provided that the boilers are again examined within 12 months as per rule.

Office or Registration Fee (per Sec. 27) £ :
