 on the Machinery of the S.S. "Norham Castle" Tons, Net 2722 Gross 4241
 Surveyed in Dry Dock Green Vessel built at Glasgow in 1883 Engines made in 1883
 No. of Main Boilers 2 Made in 1883 Donkey Boiler made in 18 Working Pressure, Main Boilers 80 lbs.;
 Working Pressure, Donkey Boiler 15 lbs.; Owners D. Currie & Co. Port London
 Last Survey No. 307 Port London Class of Vessel and Machinery 100A1+I.M.C. 6.87
 (As in Register Book.)

Particulars of Repairs and Examination

(State clearly the cause of Repairs if any, and, in detail, the nature and extent of Examinations and subsequent Repairs.)

Repairs on account of Damage should be separated from Repairs due to other causes. State also the dates and initials of any letters respecting this case.

Did the Surveyor personally go inside each Boiler separately (including the Donkey Boiler, if any), and make a thorough examination at this time?

If this was not done, state for what reasons?

And what parts of the Boilers could not be thus thoroughly examined?

Also what special means, in the absence of internal examination, were adopted by the Surveyor to assure himself of the thorough efficiency of those parts of each Boiler?

Vessel placed in dry dock sea connections examined & found in good condition. Propeller disconnected, tail shaft drawn, examined, found in good condition four new blades fitted to boss which has been replaced. The stern bush did not require to be renewed.

General Observations, Opinion, and Recommendation:— *As far as seen this vessel appears eligible to remain as classed.*
 (State clearly what alteration, if any, is suggested to be made in the existing classification and notification of the vessel's machinery in the Register Book, consequent upon this survey.)
