Particulars of Examination and Repairs (if any) Special Survey

(State clearly the cause of Repairs if any, and, in detail, the nature and extent of Examinations and subsequent Repairs.) Repairs on account of Damage should be separated from Repairs due to other causes. State also the dates and initials of any letters respecting this case

Did the Surveyor personally go inside each Boiler separately (including the Donkey Boiler, if any), and make a thorough examination at this time? Main boiler

If this was not done, state for what reasons?

And what parts of the Boilers could not be thus thoroughly examined?

Also what special means, in the absence of internal examination, were adopted by the Surveyor to assure himself of the thorough efficiency of those parts of each boiler?

Main boiler & safety valves examined in good condition.

Examined cylinder, piston, valves, crank thrust & tunnel shafting, air circulating & feed & bilge pumps & valves in good condition, also sea cocks & connections.

To complete survey, donkey boiler to examine & valves of main & donkey boilers to adjust under steam.
