Particulars of Examination and Repairs (if any) Condition
(Periodical Surveys, when held, must be reported in detail and seriatim in the terms of the Rules. State clearly the cause of Repairs, if any, and, in detail, the nature and extent of Examinations and subsequent Repairs. Repairs on account of Damage (the cause of which must be stated) should be separated from Repairs due to other causes; and besides being detailed in the body of the report, should be briefly summarised at the end of the report. State also the dates and initials of any letters respecting this case.)

Did the Surveyor personally go inside each Main Boiler separately and make a thorough examination at this time? No
Do. " Donkey " No
If this was not done, state for what reasons? Boilers not due for survey.
And what parts of the Boilers could not be thus thoroughly examined? ✓
Also what special means, in the absence of internal examination, were adopted by the Surveyor to assure himself of the thorough efficiency of those parts of each Boiler? ✓
Did the Surveyor examine the Safety Valves of the Main Boiler? No
At what pressure were they afterwards adjusted under steam? Not adjusted at this survey.
Did the Surveyor examine the Safety Valves of Donkey Boiler? No
To what pressure were they afterwards adjusted? Not adjusted at this survey.
If the Survey is not complete state what arrangements have been made for its completion? Complete.

All sea-connections examined while the vessel was in dry dock and found in good order. Four new steel blades fitted to propellerboss in lieu of those removed which were much pitted at tips.

General Observations, Opinion, and Recommendation:— The machinery of this vessel, so far as seen, was in good working order, in my opinion, eligible to remain as classed, without fresh record of survey
(State clearly what alteration, if any, is suggested to be made in the existing classification and notification of the vessel's machinery in the Register Book, consequent upon this survey: thus, for example, B.S. 2, 22, R.&M.S. 2, 22 or L.M.C. 2, 22, as the case may be.)

This image shows a blank, aged, cream-colored page, likely an endpaper or flyleaf from an old book. The paper has a slightly textured appearance with some minor discoloration and faint smudges, characteristic of old paper. The left edge of the page shows the binding of the book, with visible stitching or staples. The overall tone is warm and slightly yellowed, suggesting its age.
