Particulars of Examination and Repairs (if any) B.S.

(Periodical Surveys, when held, must be reported in detail and seriatim in the terms of the Rules. State clearly the cause of Repairs, if any, and, in detail, the nature and extent of Examinations and subsequent Repairs. Repairs on account of Damage (the cause of which must be stated) should be separated from Repairs due to other causes; and besides being detailed in the body of the report, should be briefly summarised at the end of the report. State also the dates and initials of any letters respecting this case.

Particulars of Classification (which must be inserted precisely as in Register Book & Supplements).

Did the Surveyor personally go inside each Main Boiler separately and make a thorough examination at this time? No

Do. " Donkey " " " Yes

If this was not done, state for what reasons? Main Boiler not prepared for Survey.

And what parts of the Boilers could not be thus thoroughly examined?

Also what special means, in the absence of internal examination, were adopted by the Surveyor to assure himself of the thorough efficiency of those parts of each Boiler? No

Did the Surveyor examine the Safety Valves of the Main Boiler? not adjusted.

At what pressure were they afterwards adjusted under steam? Yes. 50lb per □"

Did the Surveyor examine the Safety Valves of Donkey Boiler?

To what pressure were they afterwards adjusted?

If the Survey is not complete state what arrangements have been made for its completion? The survey will be completed on vessels return to the U.K in about 10 days time.

Examined Donkey Boiler internally & externally & Safety valves, all found to be in good condition, except the Uptake tube which had a crack about 6" long in the forward side, the cracked part has now been cut out & a patch has been riveted on.

To complete the Survey. The Main Boiler & its Safety valves to be examined & its Safety valves to be adjusted under steam.

General Observations, Opinion, and Recommendation:— This vessel's Boilers are now as far as seen in good condition & in my opinion the vessel is eligible to remain as classed with record B.S with date when the survey has been completed.

(State clearly what alteration, if any, is suggested to be made in the existing classification of the vessel's machinery in the Register Book, consequent upon this survey, and also any alteration required to be made in the records of the vessel's machinery, boilers, working pressures, &c.: thus, for example, B.S. 4,94, B.&M.S. 4,94 or ✠L.M.C. 4,94, 140 lb., F.D., &c.)
