Last Survey, No. 3797 Port London

(Periodical Surveys, when held, must be reported in detail and serially in the terms of the Rules. State clearly the cause of Repairs, if any, and, in detail, the nature and extent of Examinations and subsequent Repairs. Repairs on account of Damage (the cause of which must be stated) should be separated from Repairs due to other causes; and besides being detailed in the body of the report, should be summarised in the form shown below. Whenever the replacement of Anchors, Chains, or Hawser is reported, the particulars of weight or size and test of the articles should be clearly stated, and also the weight or size, &c., required by the Rules, together with the vessel's Equipment Letter, if any. State also the date and initial of any letters respecting this case.)

REPAIRS, OR EXAMINATION AS PER RULE, FOR Annual Survey.  
 Vessel placed in dry dock, bottom examined  
 cleaned and painted.

The rudder area was increased by fitting  
 doubling plates to the lower half of the rudder and  
 fitting an additional rudder frame between the after ends  
 of these plates secured to the original rudder frame by  
 cap bolts.

## General Observations, Opinion as to Class, Recommendation, &c.:—

State clearly whether any and, if so, what alteration is suggested to be made in the existing classification and notification of the vessel in the Register Book consequent upon this survey, thus, for example:—".....to remain as now classed in the Register Book without fresh record of Survey," "to remain as classed and to have record of survey, 9.91," or "to remain as classed and to have record of survey, 9.91, and the notations of 'No. 1-91 and PIND 91, &c.'"

This vessel, so far as seen, is now in good and efficient condition, and eligible in my opinion to remain as classed with record of survey "11.94".
