Particulars of Classification (which must be inserted precisely as in Register Book & Supplements).

N.B.—All alterations in the existing records should be underlined.
If the vessel has Water Ballast Tanks, state whether the manhole covers have been removed, and the insides of the tanks examined. Also state the amount of deterioration (if any) found in the thicknesses of the floors, framing, girders, and of the inner bottom plating, especially in the boiler space.

Last Survey, No. 56573 Port Lon

(Periodical Surveys, when held, must be reported in detail and serially in the terms of the Rules. State clearly the cause of Repairs, if any, and, in detail, the nature and extent of Examinations and subsequent Repairs. Repairs on account of Damage (the cause of which must be stated) should be separated from Repairs due to other causes; and besides being detailed in the body of the report, should be summarised in the form shown below. Whenever the replacement of Anchors, Chains, or Hawsers is reported, the particulars of weight or size and test of the articles should be clearly stated, and also the weight or size, &c., required by the Rules, together with the vessel's Equipment Letter, if any. State also the dates and initials of any letters respecting this case.)

REPAIRS, OR EXAMINATION AS PER RULE, FOR Damage through striking the dock wall when entering the Victoria docks.

The 3rd and 4th staves below sheerstroke at fore end of h^o 1 hold on Starboard side indented and three frames in way of same bent.

The started rivets in the shell plating in way of above damage have been renewed and the landing edges of the 4th stake below sheer in the same range have been recanted.

These incidents do not affect the efficiency of the vessel. The owners propose to permanently repair the above damage on the vessel's return from her present voyage.

Vessel placed in dry dock bottom examined cleaned and painted. Several rivets in the heel of the stern post now renewed.

General Observations, Opinion as to Class, Recommendation, &c.:—

State clearly whether any and, if so, what alteration is suggested to be made in the existing classification and notification of the vessel in the Register Book consequent upon this survey, thus, for example:—"to remain as now classed in the Register Book without fresh record of Survey," "to remain as classed and to have record of survey, 9.91," or "to remain as classed and to have record of survey, 9.91, and the notations of ss No. 1-91 and ptND91, &c."

This vessel, so far as seen, is now in efficient condition and eligible in my opinion to remain as classed with record of survey "11.95"
