No. of Donkey Boilers one

Steam Pressure 90 lbs

Surveyed Afloat or in Dry Dock W India Dock

Particulars of Classification (which must be inserted precisely as in Register Book & Supplements).

Last Survey No. 58158 Port Lon

Particulars of Examination and Repairs (if any) Comp D B.S

+100 A. 6-96

+2m C 12-95

(Periodical Surveys, when held, must be reported in detail and serially in the terms of the Rules. State clearly the cause of Repairs, if any, and, in detail, the nature and extent of Examinations and subsequent Repairs. Repairs on account of Damage (the cause of which must be stated) should be separated from Repairs due to other causes; and besides being detailed in the body of the report, should be briefly summarised at the end of the report. State also the dates and initials of any letters respecting this case.

Did the Surveyor personally go inside each Main Boiler separately and make a thorough examination at this time?

No

Do. " Donkey " "

No

If this was not done, state for what reasons?

Recently examined

And what parts of the Boilers could not be thus thoroughly examined?

Also what special means, in the absence of internal examination, were adopted by the Surveyor to assure himself of the thorough efficiency of those parts of each Boiler?

Did the Surveyor examine the Safety Valves of the Main Boiler?

At what pressure were they afterwards adjusted under steam?

flow 92 lbs

Did the Surveyor examine the Safety Valves of Donkey Boiler?

To what pressure were they afterwards adjusted?

Has the propeller shaft been drawn and examined at this time?

If the Survey is not complete state what arrangements have been made for its completion?

Complete

Examined Main Boiler under steam and adjusted safety valves to working pressure.

General Observations, Opinion, and Recommendation:—The Machinery of this vessel

(State clearly what alteration, if any, is suggested to be made in the existing classification of the vessel's machinery in the Register Book, consequent upon this survey, and also any alteration required to be made in the records of the vessel's machinery, boilers, working pressures, &c.: thus, for example, B.S. 9,95, B.&M.S. 9,95 or L.M.C. 9,95, 140 lb., F.D., &c.)

is now, so far as seen, in a safe working condition & eligible in my opinion to remain as classed, and have Record of Survey B.S. 1,97 as per London Report No 58458.

It is submitted that
this vessel is eligible for
THE RECORD.

B. J. 1, 97

7/1/97

N.B.—If this Report is copied by Copying Press, especial care must be taken that the copying paper is not so much damped as to spread the ink, or cause it to show through to the other side.

ON THE 1st day of July 1897, the vessel named "B. J. 1" was examined by the Surveyor of the Port of London, and found to be in compliance with the provisions of the Act of 1864, and the Regulations thereunder, and was accordingly licensed to trade between the ports of the United Kingdom, and to carry passengers and cargo.
