(Periodical Surveys, when held, must be reported in detail and serially in the terms of the Rules. State clearly the cause of Repairs, if any, and, in detail, the nature and extent of Examinations and subsequent Repairs. Repairs on account of Damage (the cause of which must be stated) should be separated from Repairs due to other causes; and besides being detailed in the body of the report, should be summarised in the form shown below. Whenever the replacement of Anchors, Chains, or Hawsers is reported, the particulars of weight or size and test of the articles should be clearly stated, and also the weight or size, &c., required by the Rules, together with the vessel's Equipment Letter, if any. State also the dates and initials of any letters respecting this case.)

REPAIRS, OR EXAMINATION AS PER RULE, FOR Part 1. 1. 1. 2.

Stock and bottom examined in dry dock, the bottom & ceiling removed, and cement floors, frames &c examined (except from the fore part of 2nd hatch to the after part of main hatch) fore and after peak corner and channels. Chains ranged and equipment examined, pumps overhauled, masts, spars, binnacle and rigging overhauled, Rudder lifted and reworked, and the bottom cleaned and recoated. General Observations, Opinion as to Class, Recommendation, &c.:—
State clearly whether any and, if so, what alteration is suggested to be made in the existing classification and notification of the vessel in the Register Book consequent upon this survey, thus, for example:—“to remain as now classed in the Register Book without fresh record of Survey,” “to remain as classed and to have record of survey, 1,97,” or “to remain as classed and to have record of survey, 1,97, and the notations of ss No. 1-97 and ptND97, &c.”

This vessel is now in good and efficient condition, and eligible to remain as classed, without fresh record, until the survey is completed.
