General Observations, Opinion, and Recommendation:—
(State clearly what alteration, if any, is suggested to be made in the existing classification of the vessel's machinery in the Register Book, consequent upon this survey, and also any alteration required to be made in the records of the vessel's machinery, boilers, working pressures, &c.: thus, for example, B.S. 9,97, E.&M.S. 9,97 or L.M.C. 9,97, 140 lb, F.D., &c.)
The machinery of this vessel so far as has been examined is in good order and in my opinion eligible to remain as classed, without further remark.
