

Enclosure.

17th January 1882.

Sir, I am directed to forward
the accompanying Report (and
attachments) on the steamer
'George Cornwall'; and in requesting
you to be good enough to forward the
report of the survey which appears
to have been held on this vessel's
machinery at your post, I have to
enquire what was the exact amount
which the steam boat was worn
down when seen by the Engineer
Surveyors at your post, and why
there has apparently been so much
delay in reporting the survey.

Secretary
Liverpool

Dear Sir,
Yours obedient servant,
B. W. Varying
