

JAMES E. SCOTT,

Shipbuilder.

Telegraphic Address,

J.E. SCOTT, LONDON.

13, Rood Lane.

London 9 October 1883

E.C.

Sup^r The London Dry Dock Co
Railway Place E.C.
Dear Sir,

I have seen Lloyd's & they
will agree to regular web frame
system in way of hatch & is
deep instead of 12" x $\frac{3}{8}$ but
you are to send them
a section with this
arrangement shown —
that is — the keelson cut
between the web frames
& secured properly to them.
I return under ship section

Yours truly
J. E. Scott
