

H.

Rye.
May 9/80

Dear Sir.

Since writing you
we have begun taking
frame work & over boiler
& the decks ^{out} & find some
of it will have to be renewed,
so that possibly it will
be better for the Surveyor to
wait till the Boiler has
been put in at Newhaven
& the Boat has returned
to Rye, where all these

necessary renewals will
be made & when these are
done we will advise you -
We doubt if Hull & Machinery
will be ready by Friday &
in suggesting your inspection
there I thought you would
be better able to see the
concrete &c.

Yours faithfully
A. G. Dryhurst
