

M.

1 Enc.

3rd. September, 1892.

Dear Sirs,

With reference to the alterations proposed to be carried out by you to the Steel Screw Steamers "LANCASHIRE" & "YORKSHIRE", I have to inform you that, provided the beams be of 8½"x3"x9/16" bulb angle iron: the frames be fitted 2 ft. apart: and the scantlings in other respects, if of steel, be as amended, and the alterations be carried out to the entire satisfaction of the Society's Surveyors, the same will be approved.

The plan left here by you is herewith returned.

I am, Dear Sirs,

Yours faithfully,

Secretary.

Messrs. Rait & Gardiner,

155, Fenchurch Street,

E.C.
