

Dear Sir,

20th July 1790

With reference to the
pumping arrangements of your
No 126 vessel, I am directed to
acquaint you that provided the
cuction pipes be made at least 6
inches internal diameter, & the
arrangements as shown on the
plan submitted by you be
adhered to, & all the work be
carried out in accordance with
the Rules, & to the entire
satisfaction of the Surveyor's
Surgeon, the same will be
approved by the Committee.

I may add that the
plan above referred to has been
returned for the Surveyor's
guidance.

I am, Dear Sir,
Yours faithfully,
John B. ...
