Dear Sir:

We have at last the pleasure to hand you the accompanying
Official Survey of the Steam-Tug "Narciso Deulofeu", by the Official
Naval Expert of this Province and Port, under the direction of the
Naval Authorities here. This survey would have been held long ago, had
not Mr. T. Brito, who held the chief post in the port for these func-
-tions, and was commissioned to make the survey, become incapacitated
through illness. He was several times believed to be on the eve of
recovery, but after a protracted period, died; so a successor had to
be appointed to take his place. Then additional delay arose from the
difficulty of getting admission to a slip, to dock and examine the
craft, as, owing to the war here, all the means at the disposal of
the Navy have been taken for the Government vessels to refit or
undergo alterations or repairs. We hope the report of the Surveyor will
prove satisfactory in all respects, as the tug is in such good con-
-dition and we remain, Dear Sir: Your Obedt. Servts.
