Care of Messrs. Marshall J. Smith and Co,

64 Baronne St.

New Orleans.-

Dear Sirs:

We beg to own receipt of your valued favor of the 19th ult, the contents of which have our best attention and thanks. We very much regret any annoyance that you may have had owing to your course in the matter of the periodical survey of the "Narciso Deule-feu", which, however, we do not see why it should be thought unsatisfactory by the home office. We have every desire to satisfy the just expectations of the latter and it appears to us that, in view of the thorough way in which repairs have been attended to, and by quite capable parties, the result should be all that can be desired in fact. -- Unfortunately for us, we have been delayed in sending off the papers, owing to Mr. Brito being so very ill of a heart disease, which has attacked him since the work was done, that it has been impossible to complete the documents. He is reported improving, and, as soon as possible, all shall be concluded.

We remain, Dear Sir, Your Obdt. Servts.-
